🌐 <https://raghdafouda.com>

Back-end & WordPress developer with 4+ years' experience creating fast, responsive websites for e-commerce and corporate clients. Skilled in Python, MySQL, SEO optimization, and UX/UI design. Proven record of 99% client satisfaction and training experience as ICDL instructor.

Experience

INFORMATION SYSTEM CENTER ZAGAZIG

2015 - 2020

ICDL Instructor & Lab Tester (3 years), Center Director (3 years)
Delivered ICDL training to 200+ students with a 95% certification success rate.
Managed daily operations and coordinated a small team of instructors.

EGYPT E-MARKET

2020 - 2023

Web Developer & Moderator
Developed 15+ WordPress e-commerce and corporate sites, improving page speed and SEO rankings. Managed site content and user interactions ensuring high availability and security.

Freelance WordPress & Shopify Developer

2023 - Present

web developer specializing in creating high-performing, user-friendly websites and eCommerce stores. With expertise in WordPress and Shopify, I design and develop responsive, SEO-optimized, and conversion-focused solutions tailored to each client's needs. My work includes:

- Custom WordPress theme & plugin development
- Shopify theme customization & app integration
- E-commerce store setup, product management & payment gateways
- Performance optimization & SEO best practices
- Responsive design for seamless mobile and desktop experiences
